

**COMPUTER SCIENCE MAJORS,
THIS IS THE PLACE FOR YOU!**

Summer 2017 Internship

CECO is seeking an summer intern with a Computer Science major to support our Engineering department in our Southwest Houston location!

We would like to extend a welcome to candidates who possess a working knowledge of the Python programming language, and a preferred candidate would be knowledgeable in VBA, and/or C++, and/or Java.

This opportunity will focus heavily on computer science and programming and would work with our engineering team to translate current programs into a more robust object oriented programming language (OOP). Our initial focus will be on our product simulation program as well as a new program to calculate HP curves.

Juniors, Seniors, and Graduates,

Please apply to CECO's paid internship at
