CECO® Mechanical Field Services delivers on site service, analysis, repair, and replacement for air, gas and petrochemical compressors of all sizes and designs. Our expertise ranges from full compressor overhauls to servicing gas gathering, processing and gas pipelines. Our field crews have extensive experience servicing engines and compressors in the oil and gas industry.

Our core ethic is quality for our customers. At CECO we do it right!

THE COMPRESSOR EFFICIENCY PEOPLE

CECO provides project oriented and long term mechanical field services that dramatically cut your costs and time. We offer immediate repairs and parts replacement from our own large inventories of quality parts, and can manufacture new components in our Manufacturing and Precision Repair Centers. Throughout the length of the project, we analyze compressor and engine performance to maximize your productivity. We provide expert engineering support 24 hours a day 7 days a week, with real-time access. On site, faster, and more effective, CECO delivers.

TURNKEY, ON-SITE COMPRESSOR SERVICES

CECO Mechanical Field Services can extend the life of your compressor through redesign and rebuilding, or overhaul the compressor to run at optimum efficiency. CECO’s compressor overhaul service includes everything from cylinder removal for reline services or field installation of slip fit liners, to furnishing and installing engineered equipment, pistons, rods, piston rings, and rider bands, as well as repairing packing cases.

ENGINEERED QUALITY

CECO has been delivering OEM Superior™ products and services to the gas transmission, gas processing and petrochemical industries since 1964.

The background, skills and expertise of CECO Mechanical Field Services expands our industry leadership in maximizing compressor operations and cost-saving services and products.

- Turnkey, on site compressor services, from repair to replacement to overhaul
- Technical expertise in the field with real-time engineering support
- Performance analysis, troubleshooting, and engineering of reciprocating compressors of all sizes
- A large inventory of quality replacement parts
- New or custom parts produced in our Manufacturing and Precision Repair Centers
- Services to gas gathering, processing, gas pipeline and refining markets
