

Improve your compressor efficiency and reliability!
MID-SPEED COMPRESSOR POPPET VALVES

eMAX2™

MAXIMIZE RELIABILITY AND EFFICIENCY

Replace outdated plate valves and poppet valve designs

MAXIMUM GAS FLOW = HIGHER EFFICIENCY

Fully-machined, high grade, ductile iron providing smooth generous gas passages

MORE DURABLE AND LONG-LASTING

Saving on labor and maintenance resulting in less expensive repairs

MORE TOLERANT OF LIQUIDS AND IMPURITIES Running longer between overhauls, reducing compressor downtime

IMPROVES FLOW CHARACTERISTICS Special poppet design made from Resilon-T PC405™

FIELD REPAIRABLE & SIMPLIFIES SPARE PARTS INVENTORY One size poppet and spring

SPECIALLY DESIGNED FOR

Ariel KBB, KBV, KBZ, JGV and JGZ, Enterprise, Ajax and Dresser Rand units

SPEED: 300-1000 RPM
