

PRODUCT OVERVIEW

CECO delivers products and services to the gas transmission, midstream, gas processing, and petrochemical industries. With business units specializing in compressor parts and repairs as well as training and technical services, CECO is uniquely equipped with the engineering, manufacturing, and support services necessary to improve your bottom-line.

MECHANICAL FIELD SERVICES

- Turnkey, on-site compressor and engine mechanical work, helping you reduce compressor downtime
- Technical expertise in the field with real-time engineering support
- Services include: cylinder boring/realigning, unloading equipment installation, compressor component disassembly/reassembly, and field repair
